FASTER AND EASIER LIGHTWEIGHT NATURAL SLATE ROOFING

DURABILITY

Natural slate is a long-lasting, high strength, weatherproof and fire resistant natural material which holds natural beauty and remains unchanged over time in terms.

ECOLOGY

Our 100% natural slate is split by hand and uses no additional chemicals, which combined with its unmatched durability, makes it a sustainable material with low environmental impact.

PERSONALITY

Characterized by its natural sheen and incomparable texture, natural slate is an elegant material, bringing prestige to any surface. Each natural slate extracted is unique.

SIMPLE

Do-it-yourself approach: The 4-step installation doesn't require a skilled trade or specialised machinery. READYSLATE® modular design ensures complete waterproofing and seamless integration with any existing roof elements.

1

READYSLATE® is easily installed with nails. All individual slate tiles are predrilled to simplify the installation process. Once fitted, peel back the protective film.

2

READYSLATE's modular design makes installation extremely simple. Aligning the modules is even easier as you overlap the second module over the remaining waterproof sheet of the previous module.

3

READYSLATE® slate tiles are marked with an overlapping line to ensure can be accurately laid with ease.

4

Repeat, easily adapting modules to any roof element, to complete your own waterproof, resistant and eco-friendly natural slate roof.

Valleys, ridge, hips and other singular points: READYSLATE® can be combined with most of flashings and waterproofing solutions in metal or other materials.

**Please consult our step-by-step installation instructions for more information.*
